FRIGIDAIRE

Home Comfort

FFTH1022R2

Through-The-Wall Air Conditioner / Heater

Product Dimensions

Height	14-1/2"
Width	24"
Depth	20-1/2"

More Easy-To-Use Features

Supplemental Heating Option
With our supplemental heating capability, you can be comfortable regardless of the temperature outside — you have both heating and cooling solutions!

Sleep Mode
With Sleep Mode, the temperature gradually increases a few degrees over the evening, saving energy and creating a comfortable environment during the evening hours.

Remote Control
Offers you the flexibility to control the temperature and fan speed from anywhere in the room.

Effortless™ Clean Filter
Our antibacterial filter reduces bacteria, room odors and other airborne particles for a healthier, more comfortable environment.

Power Cord
Comes with an extra long three-prong cord — makes extension cords unnecessary.

Effortless™ Restart
Automatically resumes operating at its previous settings when power is restored to your unit.

Clean Filter Alert
Alert notifies you when your filter needs to be cleaned so you don't have to keep track of it yourself.

Ready-Select® Controls
Easily select options with the touch of a button.

Performance	BTUs
Cool	10,000 / 9,800
Heat	10,600 / 8,600

Signature Features

Effortless™ Temperature Control

Our air conditioners maintain the preset room temperature, so you will remain comfortable at all times.

Energy Saver Mode

Reduce your utility bills in this mode. It cools similarly to central air, with the unit turning on and off at different intervals to ensure the room temperature stays at the set temperature.

Programmable 24-Hour On/Off Timer

With the 24-Hour On/Off Timer, you can ensure your home will be cool and comfortable when you want it to be without having to worry about running up your utility bills. The built-in timer allows you to preset the unit to turn on and off in half-hour increments.

Multi-Speed Fan

Features three different fan speeds, for more cooling flexibility.

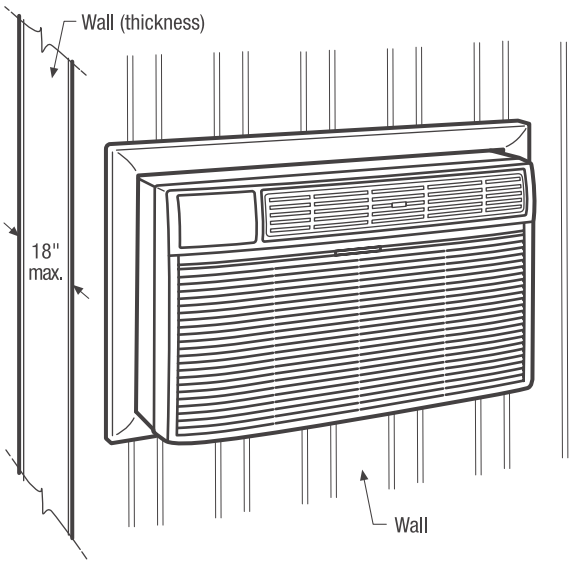
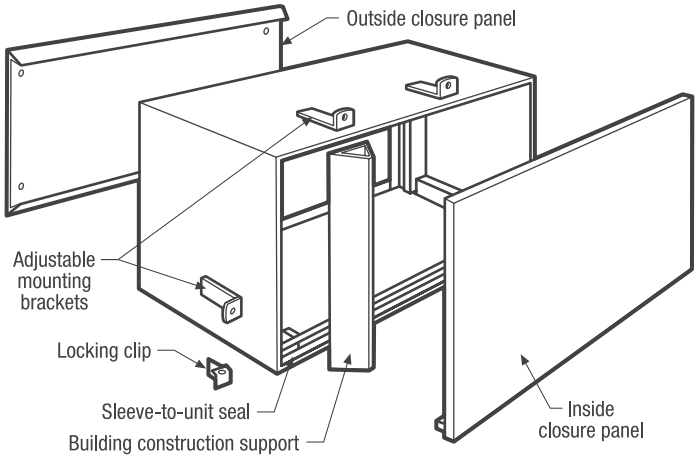
Through-The-Wall Installation



Through-The-Wall 18" Sleeve Kit
(PN# EA108T)



Plug Type (NEMA) 6-20P

Home Comfort Specifications

- Product Shipping Weight (approx.) – 81 Lbs.
- Single phase 3-wire cable, 230 / 208 Volt, 60 Hertz AC only electrical supply with ground required on separate circuit fused on both sides of line.
- Amps @ 230 / 208 Volts = (Cool) 4.6 / 5.0 Amps / (Heat) 15.0 / 13.5 Amps
- Recommended Circuit Breaker – 20 Amps
- Unit equipped with 230 / 208V 3-wire power supply cord, NEMA plug type 6-20P, approximately 72" long.
- Unit's increased performance characteristics result from two rear intakes. For unit to operate at maximum efficiency, carefully follow complete, detailed new or replacement installation instructions provided in Product Installation Guide on web.
- Unit requires rearward slope when installation is complete, to allow condensate to drain from rear of sleeve.

New Installation

- For new installation, Frigidaire® Through-The-Wall 18" Sleeve Kit PN# EA108T available. Recommended for proper installation.
- Through-the-wall installation requires 18" maximum wall thickness.
- For energy-saving purposes, install unit in shady location, preferably a northern exposure; and do not block airflow inside with blinds, curtains or furniture; or outside with shrubs, enclosures or other buildings.

Replacement Installation

- When replacing existing air conditioner with new unit, refer to Product Installation Guide on web to identify existing wall-sleeve manufacturer and size compatibility. If proper installation and slope are suspect, then correct installation of Frigidaire® Through-The-Wall 18" Sleeve Kit PN# EA108T recommended.
- Use of existing wall sleeve to mount new unit requires original sleeve be in sound structural condition with rear grille that attaches securely, or rear flange that serves as stop for unit.
- Preferable installation option, for increased efficiency and possibility of drafts reduced, requires existing rear grille *(mounted to sleeve)* be replaced with new unit's rear air-directional louvered grille *(provided in accessory kit, shipped with unit)*. Non-preferable installation option of directly mounting rear louvered grille to unit can be considered, requiring grille be mounted to unit prior to sleeve installation.
- Existing decorative exterior grille may be left in place, provided that proper air-directional rear louvered grille is installed.
- For installation into larger existing sleeve, optional Trim Kit PN# EA120T available.

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

Optional Accessories

- Through-The-Wall 18" Sleeve Kit – (PN# EA108T).
- Trim Kit *(for larger existing sleeve)* – (PN# EA120T).
- Architectural-Style Exterior Louvered Grille – (PN# EA109T).
