Serene Foam

- **Supportive Air Technology**
  Serene® foam is designed with billions of microscopic air capsules to enhance support while reducing pressure on sensitive areas of the body.

- **Not Temperature Sensitive**
  Unlike memory foam, Serene® foam is not temperature sensitive, remaining plush and comfortable throughout the night.

- **Reduced Motion Transfer**
  Serene® foam minimizes motion transfer across the sleep surface.

Serene® foam was created by Carpenter Co. to offer the best in comfort and support. It is soft, yet versatile: it can be used for pillows, toppers or as a traditional comfort or transition layer for mattressess.

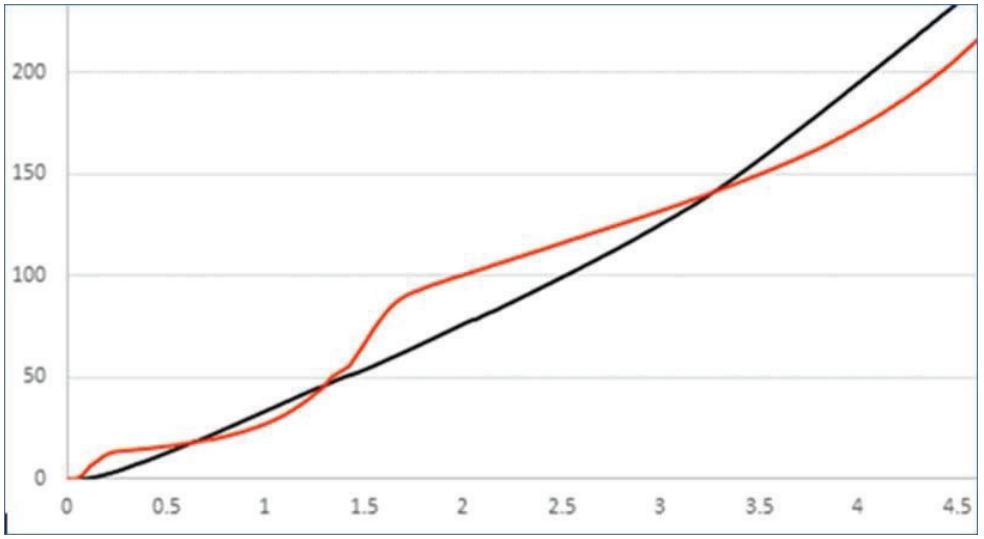

This unique collection of attributes makes for a superior product.

Quality, Durability, Comfort: Corsicana Foams

Silhouette Foam

- Rolling peaks & valleys contour to the body-for pressure relief, improved spinal alignment and breathabilty for perfect temperature
- Works with other mattress layers to distribute weight more evenly as you move, reducing partner disturbance

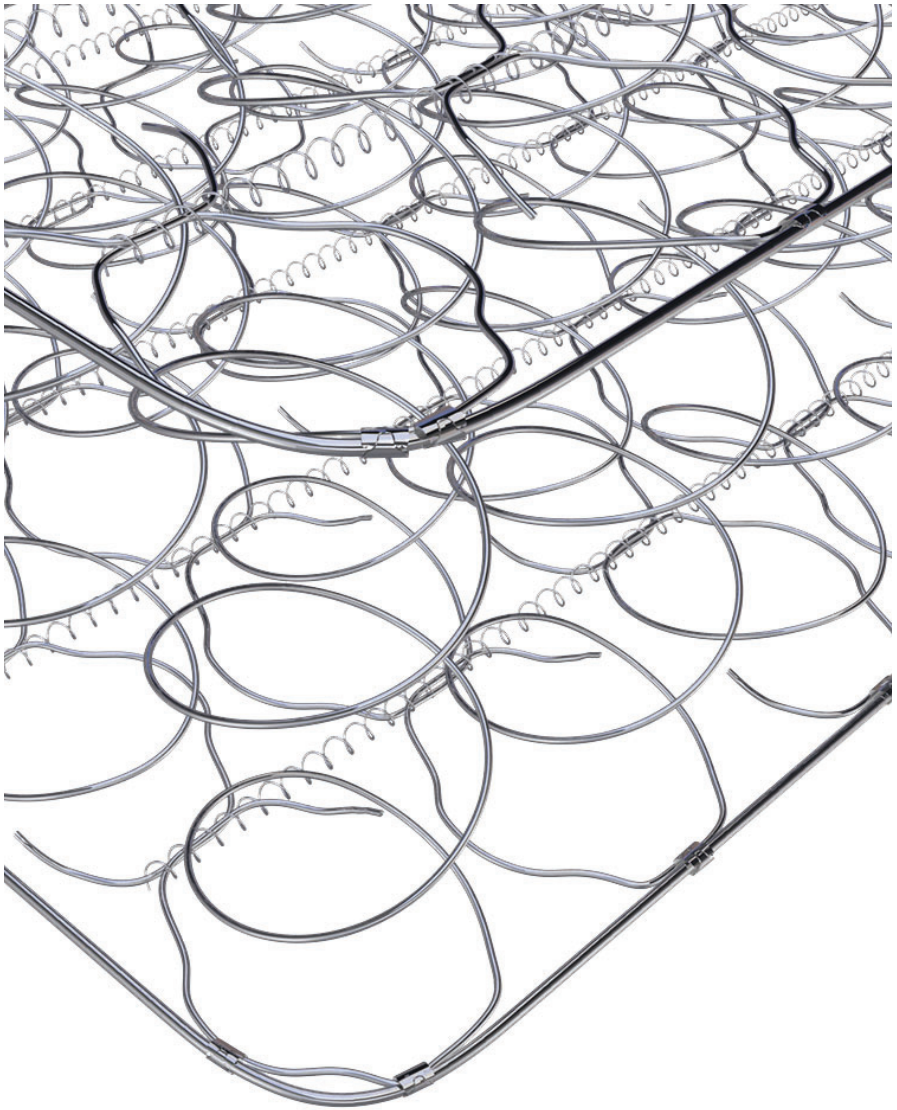

New Silhouette Foam helps you sleep more peacefully by contouring to your body, so that you feel revitalized in the morning. The unique construction of the Silhouette foam layer distributes your weight more evenly as you move, so you don't feel movement interruptions that wake you up in the night.
